# CONTENTS

|   |           |
|---|-----------|
| <b>PREFACE</b> .....  | <b>VI</b> |
| <b>1 WHAT IS PHOTOGRAPHY?</b> .....                                     | <b>1</b>  |
| <b>2 WHAT IS LIGHT?</b> .....   | <b>5</b>  |
| <b>3 THE CAMERA – AN INTRODUCTION</b> .....                             | <b>11</b> |
| 3.1 INTRODUCTION .....  | 11        |
| 3.2 THE CAMERA BODY .....   | 11        |
| 3.3 THE LENS .....  | 12        |
| 3.4 FILM AND SENSORS .....  | 14        |
| <b>4 IMAGES: WHAT IS PERSPECTIVE?</b> .....                             | <b>18</b> |
| <b>5 WHY DOES A CAMERA NEED A LENS?</b> .....                           | <b>22</b> |
| <b>6 ELEMENTARY OPTICS: HOW DO LENSES WORK?</b> .....                   | <b>25</b> |
| <b>7 THE SIMPLE THIN LENS AND WHAT IT DOES</b> .....                    | <b>30</b> |
| 7.1 INTRODUCTION .....  | 30        |
| 7.2 OPTICAL SURFACES .....  | 30        |
| 7.3 COMPOUND LENSES .....   | 33        |
| 7.4 CONCLUSION .....  | 34        |
| <b>8 HOW TO MAKE LENSES THAT ARE GOOD ENOUGH FOR PHOTOGRAPHY</b> .....  | <b>36</b> |
| 8.1 INTRODUCTION .....  | 36        |
| 8.2 ABERRATIONS .....   | 38        |
| 8.3 THE PETZVAL SUM .....   | 40        |
| 8.4 OPTICAL MATERIALS .....   | 41        |
| 8.5 ANTI-REFLECTIVE COATINGS .....                                      | 43        |
| 8.6 CONCLUSION .....  | 46        |
| <b>9 COMING TO TERMS WITH REAL CAMERA LENSES</b> .....                  | <b>48</b> |
| 9.1 INTRODUCTION .....  | 48        |
| 9.2 THE THIN LENS .....   | 49        |
| 9.3 THE COMPOUND LENS .....   | 49        |
| 9.4 GAUSSIAN OPTICS .....   | 51        |
| 9.5 ENTRANCE PUPIL, STOP, AND ILLUMINATION OF THE IMAGE .....           | 52        |
| 9.6 VIGNETTING .....  | 54        |
| 9.7 CONCLUSION .....  | 56        |
| <b>10 FISHEYE LENSES AND HOW THEY CAPTURE THE WHOLE SKY</b> .....       | <b>58</b> |
| 10.1 INTRODUCTION .....   | 58        |
| 10.2 CONVENTIONAL LENS .....  | 60        |
| 10.3 FISHEYE LENSES .....   | 60        |
| 10.4 HOW FISHEYE LENSES ACCOMPLISH THEIR MAGIC .....                    | 61        |
| 10.5 EXAMPLES AND ILLUSTRATIONS .....                                   | 63        |
| 10.6 CONCLUSIONS .....  | 65        |
| <b>11 WHAT IS AN EQUIVALENT IMAGE?</b> .....                            | <b>67</b> |
| 11.1 INTRODUCTION .....   | 67        |
| 11.2 DETERMINANTS OF IMAGE APPEARANCE .....                             | 67        |
| 11.3 COMMENTS AND CONCLUSIONS .....                                     | 72        |
| 11.4 AN ILLUSTRATION OF MAXIMUM <i>DoF</i> WITH DIFFERENT SENSORS ..... | 73        |
| <b>12 HOW TO GET REALLY HIGH MAGNIFICATION</b> .....                    | <b>76</b> |
| 12.1 INTRODUCTION .....   | 76        |

|           |   |            |
|-----------|---|------------|
| 12.2      | SUPPLEMENTAL LENSES.....  | 80         |
| 12.3      | EXTENSION .....   | 82         |
| 12.4      | TELECONVERTERS (TELE-EXTENDERS) FOR CAMERAS WITH INTERCHANGEABLE LENSES ..... | 83         |
| 12.5      | AFOCAL TELECONVERTERS FOR FIXED LENS CAMERAS .....                            | 85         |
| 12.6      | COMBINATIONS OF LENSES AND EXTENDERS FOR REAL WORLD MACROPHOTOGRAPHY .....    | 85         |
| 12.7      | SPECIAL PROBLEMS RESULTING FROM HIGH MAGNIFICATION .....                      | 88         |
| 12.8      | LIGHTING FOR CLOSEUP NATURE PHOTOGRAPHY WITH HIGH SHUTTER SPEEDS.....         | 88         |
| 12.9      | THE OPTIMUM F-NUMBER FOR MACROPHOTOGRAPHY .....                               | 90         |
| 12.10     | EXPANDING THE DEPTH-OF-FIELD.....   | 91         |
| 12.11     | CONCLUSIONS.....  | 93         |
| <b>13</b> | <b>DO WE NEED FILTERS ANYMORE?.....</b>                                       | <b>95</b>  |
| 13.1      | INTRODUCTION .....  | 95         |
| 13.2      | ABSORPTION FILTERS.....   | 95         |
| 13.3      | POLARIZATION FILTERS .....  | 100        |
| 13.4      | POLARIZATION IN NATURE .....  | 103        |
| 13.5      | UV AND IR PHOTOGRAPHY.....  | 108        |
| <b>14</b> | <b>THE LIMITS OF HUMAN VISION .....</b>                                       | <b>115</b> |
| 14.1      | INTRODUCTION .....  | 115        |
| 14.2      | STRUCTURE OF THE EYE.....   | 115        |
| 14.3      | OPERATION OF THE VISUAL RECEPTORS .....                                       | 116        |
| 14.4      | VISUAL ACUITY .....   | 118        |
| 14.5      | SENSITIVITY.....  | 121        |
| 14.6      | CONCLUSIONS.....  | 122        |
| <b>15</b> | <b>HOW CAN COLOR BE MANAGED?.....</b>   | <b>124</b> |
| 15.1      | INTRODUCTION .....  | 124        |
| 15.2      | COLOR THEORIES.....   | 127        |
| 15.3      | COLORIMETRY .....   | 129        |
| 15.4      | COLOR SPACES FOR DIGITAL PHOTOGRAPHY.....                                     | 135        |
| 15.5      | COLOR MANAGEMENT IN THE TRISTIMULUS WORLD .....                               | 137        |
| 15.6      | GOETHE–HERING THEORY .....  | 138        |
| 15.7      | MONOCHROME AND MONOTONE IMAGES.....   | 139        |
| 15.8      | COLOR CONSTANCY AND THE LAND THEORY .....                                     | 141        |
| 15.9      | COLOR OPPONENT CELLS IN THE RETINA AND BRAIN .....                            | 142        |
| <b>16</b> | <b>IMAGE CAPTURE AND PROCESSING.....</b>                                      | <b>148</b> |
| 16.1      | INTRODUCTION .....  | 148        |
| 16.2      | CAPTURING PHOTONS WITH IMAGE SENSORS .....                                    | 148        |
| 16.3      | CCD AND CMOS IMAGE SENSORS .....  | 149        |
| 16.4      | ENCODING OF COLOR .....   | 150        |
| 16.5      | HOW FILM/SENSOR SPEED (ISO) IS DEFINED.....                                   | 153        |
| 16.6      | HOW THE DYNAMIC RANGE IS DETERMINED.....                                      | 155        |
| 16.7      | SIGNAL PROCESSING AND DATA MANIPULATION .....                                 | 158        |
| 16.8      | ARTIFACTS RESULTING FROM INADEQUATE PERIODIC SAMPLING.....                    | 159        |
| 16.9      | GAMMA CORRECTION .....  | 160        |
| 16.10     | DOES THE SENSOR REALLY DETERMINE THE RESOLUTION OF MY DIGITAL CAMERA? .....   | 161        |
| <b>17</b> | <b>WHAT IS PERCEIVED IMAGE QUALITY? .....</b>                                 | <b>163</b> |
| 17.1      | INTRODUCTION .....  | 163        |
| 17.2      | IMAGE BLURRING AND SOFTNESS .....   | 163        |
| 17.3      | FOCUS.....  | 165        |
| 17.4      | CAMERA MOTION .....   | 165        |
| 17.5      | SIGNAL-TO-NOISE RATIOS .....  | 165        |
| 17.6      | DIFFRACTION.....  | 166        |
| 17.7      | LENS PERFORMANCE.....   | 166        |

|                        |   |                                     |
|------------------------|---|-------------------------------------|
| 17.8                   | SENSOR RESOLUTION .....   | 170                                 |
| 17.9                   | PERCEIVED IMAGE QUALITY .....   | 172                                 |
| 17.10                  | SHARPENING BY MEANS OF IMAGE PROCESSING.....                                    | 172                                 |
| 17.11                  | CONTRAST SENSITIVITY FUNCTION .....   | 174                                 |
| 17.12                  | SUBJECTIVE QUALITY FACTOR .....   | 175                                 |
| 17.13                  | A CAVEAT.....   | 177                                 |
| <b>18</b>              | <b>THE CREATION AND APPRECIATION OF ART IN PHOTOGRAPHY .....</b>                | <b>180</b>                          |
| 18.1                   | WHAT IS A GOOD PHOTOGRAPH?.....   | 180                                 |
| 18.2                   | ART AND CONSCIOUSNESS .....   | 181                                 |
| 18.3                   | HOW IMAGES ARE PERCEIVED .....  | 184                                 |
| 18.4                   | WHY DO IMAGES ATTRACT OR REPEL? .....   | 187                                 |
| 18.5                   | HOW KNOWLEDGE OF THE VISUAL SYSTEM CAN ENHANCE THE ARTIST'S BAG OF TRICKS ..... | 190                                 |
| 18.6                   | CONCLUSIONS .....   | 194                                 |
| <b>APPENDICES.....</b> | <b>.....</b>  | <b>196</b>                          |
| A                      | HISTORICAL NOTE ON ENLARGERS .....  | 196                                 |
| B                      | WHAT IS BEHIND THE RULES OF OPTICS? .....                                       | 197                                 |
| C                      | DERIVATION OF THE LENS MAKER'S EQUATION .....                                   | 202                                 |
| D                      | GAUSSIAN OPTICS AND THE PRINCIPAL PLANES .....                                  | 204                                 |
